COMMENTS

- When I arrived, I knocked on your door to speak with you about your service. I'm sorry I missed you.

WHAT I DID AND WHAT TO EXPECT

- Today, I applied fertilizer to thicken up your lawn and improve its health and color.
- Today, I treated for broadleaf weeds and sedge in your lawn. You should see these weeds begin to discolor and decline in 14-21 days.

WHAT I NOTICED

- I noticed your lawn needs water.
- I noticed some areas of your lawn are green while others are brown and dry. This may indicate the lawn is being unevenly watered.

WHAT I RECOMMEND

- Please rake lawn lightly in all matted/brown areas.
- I recommend mowing at the proper setting for your grass type during the season to promote a thick healthy turf. Mow often enough to remove no more than 1/3 of the grass; mulch clippings into the lawn.
- In the absence of rain supply one-half to 1 inch of water 1 to 2 times weekly. If local restrictions allow; you can use a tuna can as a measuring tool.
- Please check for uniform coverage of your sprinkler system.

-
- How am I doing? Go to TruGreen.com, Account login, click on the Send us your feedback link. The feedback helps us give the best service. Please make sure you refer to me by name! Thank you!

- Thank you for choosing TruGreen. It was a pleasure to serve you today.
- Please contact us if you have any questions or other concerns. Thank you for choosing us.
