COMMENTS

WHAT I DID AND WHAT TO EXPECT

- Today, I aerated your lawn. Core aeration will alleviate compaction and reduce thatch build up in your lawn. Your lawn will benefit when the cores are left in place to break down naturally.

WHAT I RECOMMEND

- I recommend mowing at the proper setting for your grass type during the season to promote a thick healthy turf. Mow often enough to remove no more than 1/3 of the grass; mulch clippings into the lawn.
- In the absence of rain supply one-half to 1 inch of water 1 to 2 times weekly. A rain gauge or even a tuna can will make a good measuring device.

Thank you for your business!
