COMMENTS

- When I arrived, I knocked on your door to speak with you about your service. I'm sorry I missed you.

WHAT I DID AND WHAT TO EXPECT

- Today, I applied preemergent crabgrass control and broadleaf weed control. This will help prevent annual grasses and other weeds from becoming a problem later in the summer and will control broadleaf weeds present in your lawn. You should see weeds begin to curl within 7-21 days.

WHAT I RECOMMEND

- I recommend mowing at the proper setting for your grass type during the season to promote a thick healthy turf. Mow often enough to remove no more than 1/3 of the grass; mulch clippings into the lawn.
- Please water in today's application with 1/2 inch of irrigation if rain is not forecasted for best results.

- How am I doing? Go to TruGreen.com, Account login, click on the Send us your feedback link. The feedback helps us give the best service. Please make sure you refer to me by name! Thank you!

- Thank you for choosing TruGreen. It was a pleasure to serve you today.
- Please contact us if you have any questions or other concerns. Thank you for choosing us.
