**COMMENTS**

- Thank you for choosing us to care for your property.

**WHAT I DID AND WHAT TO EXPECT**

- Today, I applied sulfur to your lawn. This annual application of sulfur is part of your regular lawn care program and may be applied anytime of the year. It can coincide or be applied within a few days of the standard lawn treatment. It will help improve nutrient availability and the overall health of your lawn. Since the sulfur dissolves slowly no additional watering is necessary.

**WHAT I RECOMMEND**

- In the absence of rain supply one-half to 1 inch of water 1 to 2 times weekly. A rain gauge or even a tuna can will make a good measuring device.
