COMMENTS

- Hello! Thank you for trusting us to care for your property. As a follow-up to my visit, I've left you my notes about what I did, and noticed today, and my recommendations for care between visits.

WHAT I DID AND WHAT TO EXPECT

- Today, I applied preemergent crabgrass control and broadleaf weed control. This will help prevent annual grasses and other weeds from becoming a problem later in the summer and will control broadleaf weeds present in your lawn. You should see weeds begin to curl within 7-21 days.

WHAT I RECOMMEND

- I recommend mowing at the proper setting for your grass type during the season to promote a thick healthy turf. Mow often enough to remove no more than 1/3 of the grass; mulch clippings into the lawn.
- In the absence of rain supply one-half to 1 inch of water 1 to 2 times weekly. A rain gauge or even a tuna can will make a good measuring device.
- Please water in today's application with 1/2 inch of irrigation if rain is not forecasted for best results.

- How am I doing? Go to TruGreen.com, Account login, click on the Send us your feedback link. The feedback helps us give the best service. Please make sure you refer to me by name! Thank you!

- Thank you for choosing TruGreen. It was a pleasure to serve you today.
- Please chat with us using your TruGreen mobile app or access your account on TruGreen.com 24 hours a day if you have any questions or other concerns. Thank you for choosing us.

PRODUCTS APPLIED		TOTAL VOLUME	SQFT
METHOD:	PREEMERGENT AND BROADLEAF WEED CONTROL	12.43 GAL	6217
AREAS:	Spray, 2.00 GAL/1000 SQFT		
PRODUCTS:	Entire Area
