| TODAY'S SERVICE     | DESCRIPTION            | PROPERTY SQFT | DATE      | TIME     |
|---------------------|------------------------|---------------|-----------|----------|
| TruHealth Lawn Plan | TruHealth Lawn Service | 6217 sqft     | 5/22/2023 | 12:19 PM |

**COMMENTS**

- It was a pleasure speaking with you today. We really appreciate your business. As a follow-up to our conversation, I've left you my notes below. Thank you for trusting us to service your property.

**WHAT I DID AND WHAT TO EXPECT**

- Today, I applied fertilizer to thicken up your lawn and improve its health and color.
- Today, I treated for broadleaf weeds in your lawn. You should see weeds begin to decline in 7 - 21 days. For best results avoid mowing for 24 hours.

**WHAT I NOTICED**

- I noticed your lawn needs water.

**WHAT I RECOMMEND**

- I recommend mowing at the proper setting for your grass type during the season to promote a thick healthy turf. Mow often enough to remove no more than 1/3 of the grass; mulch clippings into the lawn.
  - In the absence of rain supply one-half to 1 inch of water 1 to 2 times weekly. A rain gauge or even a tuna can will make a good measuring device.
  - In the absence of rain supply one-half to 1 inch of water 1 to 2 times weekly. If local restrictions allow; you can use a tuna can as a measuring tool.
- 
- How am I doing? Go to TruGreen.com, Account login, click on the Send us your feedback link. The feedback helps us give the best service. Please make sure you refer to me by name! Thank you!
-
