COMMENTS

- It was a pleasure speaking with you today. We really appreciate your business. As a follow-up to our conversation, I've left you my notes below. Thank you for trusting us to service your property.

WHAT I DID AND WHAT TO EXPECT

- Today, I applied preemergent crabgrass control and broadleaf weed control. This will help prevent annual grasses and other weeds from becoming a problem later in the summer and will control broadleaf weeds present in your lawn. You should see weeds begin to curl within 7-21 days.

WHAT I RECOMMEND

- I recommend mowing at the proper setting for your grass type during the season to promote a thick healthy turf. Mow often enough to remove no more than 1/3 of the grass; mulch clippings into the lawn.
- In the absence of rain supply one-half to 1 inch of water 1 to 2 times weekly. A rain gauge or even a tuna can will make a good measuring device.

- How am I doing? Go to TruGreen.com, Account login, click on the Send us your feedback link. The feedback helps us give the best service. Please make sure you refer to me by name! Thank you!
- I made sure to close the gate after I was done with the treatment.

- Thank you for choosing TruGreen. It was a pleasure to serve you today.
- Please chat with us using your TruGreen mobile app or access your account on TruGreen.com 24 hours a day if you have any questions or other concerns. Thank you for choosing us.
